

CONFERENCE REPORTS – Quorum of Seventy

Quorum of Seventy Report

The Restoration Seventy have been active in prosecuting the work during the previous year both at home and abroad. Although limited with the ability to travel, due to a shortage of funding, we have nevertheless been richly blessed as we have sought to magnify our calling.

We have labored in 17 states and 14 countries. We have performed 130 baptisms, ordained 15 men to the ministry, established two missions, and organized 7 branches. One of our seventy has been involved in directing the efforts in the translation of the Book of Mormon into Kiswahili. Many seeds of the gospel have been planted and additional baptisms are expected as we continue to labor and re-labor in these areas. We have also been active in our local branches preaching, teaching and ministering alongside the standing ministry.

We are looking forward with great anticipation to the new opportunities that will present themselves as we come under the guidance of the quorum of twelve in this coming year.

It is with deep appreciation to the saints for their continued support both through their prayers and generous financial contributions to assist us in the work of evangelism.

In gospel bonds,
The First Quorum of Restoration Seventy
President Patrick McKay
